Overview

Discrimination Legislation:

On 5 June 2018 the States unanimously supported the expansion of the existing programme of work to develop detailed policy proposals for disability discrimination legislation into a project that develops proposals for multi-grounds of protection against discrimination, including disability. Following the States decision to broaden the scope, it was agreed that the current Project Team would no longer exist in its current form and that a wider group of people representing a broader range of characteristics and including parties interested in enforcement processes would routinely be included in the project development.

Adult Safeguarding – Multi-Agency Safeguarding Hub (MASH):

Adult MASH initial six monthly review has taken place involving all stakeholders. Early signs are that adult MASH has been very well received and terms of reference has been revisited and agreed. Health and Social Care (HSC) had noted that there has been good engagement from partners in the Public Protection Unit of the Guernsey Police. The steering group has agreed to consider and implement recommendations of the initial review and continue as a pilot for a further three months.

Learning Disabilities:

Funding has been approved for a specialist consultant for Adult Disability Service Review with planned dates to start work at the beginning of September.

The Learning Disability week ran from Monday 18th June to Sunday 24th June and focussed on health care for people with learning disabilities including the new Mencap campaign ‘Treat me Well’. Different events were run throughout the week including Learning Disability Awareness training and History of Learning Disabilities.
